

Standard Blood Pressure Unit

A metallic green, calibrated cuff with velcro hook and loop closure provides a quick and comfortable fit for your patient.

The inflation bladder is constructed of a latex free, polyurethane material and has a propriety sealing process; insuring durability. The Aneroid gauge is accurate to +/- 3mmHg with a standard air release valve.

All units come with a 20-year calibration warranty and a 1-year inflation system warranty.

Cuff Size	Dimension	Range (mm)
Child	350mm x 110mm	196 - 287
Adult	540mm x 140mm	279 - 417
Large Adult	660mm x 175mm	330 - 508
Thigh	780mm x 220mm	409 - 615
